

Keep Yourself Fit for the Daily Struggle

Now that everything costs so much, you can't afford to be laid up with sore, aching kidneys. It's hard to put in a full day's work when you feel dull and tired all the time, and suffer besides with lame back, sharp pains, dizzy spells, headaches and disordered kidney action.

Some occupations bring on kidney trouble; almost any work aggravates it. Don't delay. Help the kidneys before gravel, dropsy, rheumatism, or Bright's disease attacks you. Use Doan's Kidneg Pills. They have helped thousands and should do as much for you.

Two Washington Reports:

scha-he. Many times when I tried to step from the car, a sharp pain caught most doubled me up. My kidneys actused several boxes of Doan's Kidney precured from F. P. Weller's Store, and they brought fine re-

W. H. Webb, city fireman, 1312 W St. amine the engine after a fire, sharp and free of pain. One and a hall back of my head and dizzy spells, boxes of Doan's Kidney Pills cured me ned in a blur. I and I have never had a sign of the trouble since. I don't know of any thing better than Doan's for kidne

he employers and employes get to-

Chairman Edward N. Hurley, of the United Staes Shipping Board, will leave here for San Francisco will leave here for San Francisco
this afternoon to take personal
charge of the situation on behalf
of the government. He will be accompanied by William Blackman,
conciliator of the Department of

The seriousness of the situation is fully realized here. Mr. Hurley held a lengthly conference with Samuel Gompers, president of the American Federation of Labor, yes-terday, and will continue it this morning. Following his talk with Mr. Hurley, the labor teader went to the White House for a confer-

meditation fails. In the event the ditional supplies of corn meal, rye government finds it advisable to use force, it is probable that the employers will suffer even more than the workers.

U. S. Engineers Will

Try to "Pass Buck."

Government officials believe the whole trouble is due directly to the solicy of the shipping men of try-ing to make the government assume the responsibility for wage scales and working conditions. As one official phrased it, "they are all try-ing to pass the buck to the government." Shipping Board officials were not prepared to say yesterday what action would be taken in the event the employers persist in this which can be taken, and it is be-lieved that when the employers are convinced that the government is in earnest and ready to go the limit to get its ships built, they will realize the futility of further re-

This must not be taken to mean This must not be taken to mean that the government intends to dictate terms of wages so long as the work is being done under the supervision of private concerns, it was explained. The government is the owner of the ships being built and lets the contract to the shippari. It is then the duty of the shippard to procure its own labor and pay its own wages. When this is not done, the relationship between the governrelationship between the governnent and shippard will be changed.

To Use Persuasion First.

So long as there is a possibility of The Rev. Kinsolving was formerly pastor of the Church of the Holy come to terms, the government will communion in New York. He expects not consider seizure of the shipyards not operation by the government its said for France the early part of This is one of the possibilities serving as minister to the Fort Myer training camp, has been assigned to the secretarial service overseas with the Vertex and the secretarial service overseas with solving in the aviation. And is one of the possibilities that will be pointed out to the entertaining the secretarial service overseas with

Chairman Huriey also will visit Seattle and Portland in an effort to adjust the strikes there. This situa-tion is not considered so serious, how-ever, as that in San Francisco.

GAYETY PRIZE STEED NOW AN ARMY HORSE

'Jarboe" Is Doing His Bit for Uncle Sam.

These ety Theatre recently, has renamed the horse "Jarboe," for Harry Jarboe, manager of the Gayety Theatre, as a loken of appropriation.

Etc. All of which are vital necessities in the prosecu-MAY LOSE POSITION

of Jailed Pickets.

Miss Margaret M. Fotheringham, a suff picket now imprisoned at the Occoquan workhouse, and formerly a teacher in the public schools at Buffalo, N. Y., is facing an inquisition from the education authorities in that city if she attempts to take up her work on the correlation of in that city if she attempts to take up her work on the completion of her sentence. Charging "behavior detrimental to the best interests of the public schools and neglect to discharge her duties," Superintendent of Education Emerson, in Buffalo will force a trial before the school board in that trial before the school board in that city. It is said here, however, that Miss Fotheringham has already ac-cepted a position in some form of war work and will consequently not an-

work and will consequently not answer the charges preferred against her in New York State.

Another picketing drive is scheduled for an early day this week, and militants from Cameron. House announced last night that they would take place weekly until such time as Congress adjourns. Capital police yesterday removed Miss Rebecca Hourich from the Union Station, forbidding her at the same time to sell copies of "The Suffragist," as she had been doing. This is the first cause of interference by Major Pullman's men with women selling their campaign paper, and in the past it has been the custom of the suffs to visit the Station two or three times a week.

Mrs. Gilson Gardner returned late yesterday from a visit to the workhouse, and reported the quality of the food much improved over the house, and reported the quality of the food much improved over that formerly served the pickets. Superin-tendent Whittaker prevented her giv-ing sandwiches and other dainties she had taken down as a treat to the

Repair Siberian R. R.

Paris, Sept. 22—A leading article appearing in Le Matin suggests that the Trans-Siberian Rallway, under the control of American engineers, can be greatly improved, enabling the Russian garrisons in Siberia to be relieved by Japanese troops. The released armies will be able to play a useful part at the front, while, the journal adds, there is nothing to prevent Japanese units from being sent to aid, by their courage and devotion to duty, the Russian soldiers who have been undermined by propagands.
